

Waste-Water Operator

Wastewater Treatment System

Reed City, Michigan

The City of Reed City is seeking a Wastewater Operator for our Class-A treatment facility. This position is full time, day shift hourly, working every third weekend on a rotation schedule with two other full-time operators. Operators perform technical, skilled and semi-skilled labor work in and around the treatment facility, maintaining and repairing equipment associated with wastewater treatment. This position also includes rotations in our laboratory performing routine wastewater testing.

Requirements:

- Minimum of a High School diploma with basic understanding biology and chemistry.
- Experience as an operator in a wastewater treatment facility, or successful completion of a water treatment program is preferred.
- Basic knowledge of computer operations.
- A Michigan Class D Wastewater license is preferred.
- Ability to work weekends and holidays on a rotating schedule, and ability to respond to after-hours alarms.
- Be self-motivated and be able to work with limited supervision at times.

Physical Requirements:

- Ability to climb steps and ladders, write legibly in logs and reports, bend, stoop, pull and lift up to 50 pounds.
- Ability to pass a standard physical and drug screen.

Interested individuals must complete a City Application for Employment (see reedcity.org web site) and submit cover letter and resume to:

Reed City Clerk
227 E. Lincoln Ave.
Reed City, MI 49677

Applications and resumes may be dropped off, mailed, or emailed to: agrant@reedcity.org

Applications will be accepted until the position is filled.

Compensation and benefit package determined by Teamster labor contract and City personnel manual.
